## **CCLT PRESENTATION**

Aaron Robertson introduced Ane Deister, Executive Director of the California Council of Land Trusts (CCLT) to report to the Board on the Land Trust Training and Apprenticeship Program (TAP).

Ms. Deister thanked the board for the continued support of the TAP program. She reported that once again the program had been very successful. Ms. Deister explained that CCLT had listened to the board's feedback regarding last year's intern recruitment and had expanded recruitment with a goal of increasing the diversity of intern applicants. She displayed demographic charts that showed a breakdown of the applicants and noted improvement in the diversity.

Ms. Deister then noted other modifications to the program operations including providing the interns with their travel stipend up front and flexible working hours for the interns. She noted the program training had been condensed into two days of intensive training rather than three days and included several representatives from the California Department of Conservation and several land trust personnel who are also CCLT board members. She specified that the interns did the work themselves, not just shadow staff which led to a purposeful experience for the interns.

She highlighted some of the successes of the program as well as lessons learned and where improvements can be made. She noted that one of the land trusts hired their intern.

She once again thanked the board and asked for consideration for a 2019 grant.

## **FIDUCIARY COMMITTEE**

Truman Burns directed the Board to the budget summary in the packet. He provided a budget update noting that the Stewardship Council's 2018 budget remains under budget.

## **BOARD DEVELOPMENT COMMITTEE**

Heidi Krolick announced the 2017 Annual Report had been published. She noted there were copies available for anyone interested, and that the electronic version would be emailed to the Stewardship Council's database.

## **WATERSHED PLANNING COMMITTEE**

Ms. Mulholland provided an overview of the Watershed Planning Committee's duties and then called on staff to present the action items.

### **Kings River Planning Unit (ACTION)**

After Ms. Mulholland left the room, Project Manager Lauren Faccinto reviewed the Watershed Planning Committee's recommendation that the Board approve the proposed LCCP for the lands to be retained by PG&E at the Kings River planning unit in Fresno County. The LCCP pertains to 100 acres of PG&E retained land. She said that Sequoia Riverlands Trust would hold the conservation easement over the property.

After an opportunity for questions and discussion, the Board made the following conflict of interest findings:

- The Board confirmed that in good faith it agrees that the Stewardship Council will take the proposed action for its own benefit; that the proposed action is fair and reasonable to the Stewardship Council; and that, after reasonable investigation, the Stewardship Council could not have obtained a more advantageous arrangement with reasonable effort under the circumstances.

Following the conflict of interest findings, the Board approved the action as described above in the summary of actions and resolutions taken at Board meeting.

### **Lower Drum (Bell Road) Planning Unit (ACTION)**

After Ms. Mulholland returned to the room and Mr. Muraki left the room, Senior Project Manager Steve Schweigerdt reviewed the Watershed Planning Committee's recommendation that the Board approve the proposed LCCP for the lands to be retained by PG&E at the Lower Drum (Bell Road) planning unit. The LCCP pertains to 28 acres of land in Placer County. Mr. Schweigerdt noted that Placer Land Trust would hold the conservation easement over the property.

Mr. Baggett asked whether any members of the public wished to address the Board on this matter. Mr. Baggett called on Helge Eng, Deputy Director, Resource Management with CAL FIRE.

Mr. Eng thanked the Stewardship Council board and PG&E for the donation. He stated CAL FIRE was excited to receive the property and explained it will be used as a state demonstration forest. Mr. Eng noted the demonstration forest will be important given the current climate issues.
